Rohit Waghela

+91-9833068548 — rohitwaghela272@gmail.com — LinkedIn — GitHub — Portfolio

Summary

B.Sc. Information Technology Graduate with hands-on experience in web development and responsive website creation. Proficient in HTML, CSS, JavaScript, React.js, Python, SQL, MySQL, and MongoDB. Skilled in building user-friendly web applications and data-driven solutions. Eager to contribute strong technical, analytical, and problem-solving abilities as a Web Developer or Junior Software Engineer.

Education

Ramanand Arya DAV College, Mumbai University — Mumbai, India
Bachelor of Science in Information Technology — *June 2023 – March 2026*

- CGPA: 8.45 / 10.00

Technical Skills

Programming Languages: Python, JavaScript, SQL, HTML, CSS
Frameworks & Libraries: React.js, Streamlit
Databases: MySQL, MongoDB (NoSQL)
Tools & Platforms: VS Code, Excel, Power BI, Google Colab, Anaconda, GitHub
Concepts: Machine Learning, Data Analysis, Responsive Web Design, E-Commerce Development

Experience

AI/ML Intern — February 2026 – March 2026
Sapio Analytics (Remote) — *Andheri, Mumbai*

- Assisted in data preprocessing, data cleaning, and exploratory data analysis using Python.
- Worked on Machine Learning concepts including supervised learning and predictive modeling.
- Utilized Google Colab, Excel, and Python libraries for model development and analysis.
- Collaborated remotely with team members on AI/ML project tasks and documentation.
- Presented insights and findings through reports and visualizations.

Projects

Car Price Predictor | *Python, Streamlit, Machine Learning, Excel* — 2024

- **Problem:** Manual car valuation is subjective, time-consuming, and prone to pricing errors for both buyers and sellers.
- **Solution:** Built a supervised Machine Learning model using Python and Streamlit to predict accurate vehicle prices based on historical market data.
- **Impact:** Delivered instant, data-driven vehicle price predictions through an interactive web application, reducing estimation time significantly.

Online Cakes & Chocolates Shop | *HTML, CSS, JavaScript, GitHub Pages* — 2024

- **Problem:** Small local bakeries struggle to reach customers and manage orders efficiently through traditional offline methods.
- **Solution:** Developed a fully responsive e-commerce platform using HTML, CSS, and JavaScript, enabling seamless product browsing and order placement.
- **Impact:** Improved online accessibility for customers to browse products and place orders anytime, increasing potential customer reach.
